SA NORMS	Yes (2013)

The Matrigma measures cognitive ability using non-verbal logical problems and can be used to predict career success and job performance. Cognitive ability includes aptitude for accurate problem solving, logical reasoning and the ability to grasp new information. The Matrigma can help to predict behaviours such as critical reasoning skills, clear thinking, learning skills, and sound decision-making.

ASSESSMENT SCALES

The Matrigma provides an indication of overall general mental ability.

SSS

AREAS OF APPLICATION

It provides valuable information for use in selection settings

REPORT OPTIONS

The Matrigma has the following report available:

- **Interpretive Report:** contains information about the individual candidate's test score. It is also intended for use by the test administrator and contains more extensive feedback support for Matrigma.
